

## Crystal Lodge & Suites Media Release

For Immediate Release – June 26, 2015

### **Crystal Lodge & Suites - Completion of \$1.3 Million Dollar Renovation**

The Crystal Lodge & Suites announced today the completion of a \$1.3 Million Dollar renovation to their 85 South Wing Traditional guest rooms meeting the demands of the resort's modern traveler.

"We are delighted that this renovation is now complete and look forward to welcoming guests from around the world in these vastly improved rooms," said Ian Lowe, General Manager at the Crystal Lodge & Suites, in Whistler British Columbia. "Our guests and partners provided us with invaluable feedback giving us the template for this renovation. Based on the reviews from our mock-up room this past winter, we are confident that our most loyal guests and first time visitors alike will be delighted with the updated product."

Other than the breathtaking mountain and village views, the remodeled Traditional guestrooms now have sophisticated bathrooms with deep soaker tubs, LED lighting with large mirrors, and contemporary vanities to ensure it is easy to get ready before heading out for the day. The main bedding area has been enhanced with sound proof windows, efficient and modern heating and air conditioning systems, a new colour palate, soft furnishings, and décor. Today's traveler can now stay connected with ease as there are alarm clock data ports on the bedside tables making re-charging extremely convenient and combined with the complimentary high-speed wireless internet access, it is easier than ever to stay connected while in the comfort of your hotel room.

"The improvements to the Traditional guest rooms are sure to compliment and fulfill the needs of the resort's modern traveler and we look forward to welcoming back our loyal guests", said Warren Kalawsky, Front Office Manager. "Our customers expect exceptional personalized service and with the revitalization of these rooms, we are sure to continue exceeding their expectations."
